Libraries & Learning Centres

Creating Beautiful Learning Spaces

Welcome

With significant changes taking place in how libraries are used, a well-designed, stimulating and vibrant space is one of the most important things that a library can offer.

The principles of good, intuitive design are hugely important, especially as buildings increasingly house shared services. Enthusiasm for library use, both for reading for pleasure as well as easy access to information, needs to be nurtured in order to retain and increase footfall.

Not only will we ensure the best use of your space now, but our solutions also allow you to react to the ever-changing needs of your users.

As a market leading UK manufacturer of library furniture, shelving and display products, FG Library & Learning has an impressive product portfolio and the capability to manufacture unique solutions where appropriate.

We recognise that every library is different and are able to offer a wide variety of solutions for creating the best possible space for your needs. Whether it is a complete new library or just refreshing an existing space, use our free design service to help you visualise how the finished project will look and let us help you put the library back at the heart of the community!

Design to inspire

Free Design Service

Planning a new library while working in a busy environment can be a challenge so why not use our experience to make things a little easier.

One of our team can visit, measure the space and discuss exactly how you want the space to work. We will then produce a plan so you can be sure that the finished library is exactly how you imagined!

Each member of the FG Library team is a trained expert in his or her field, so you know you are always dealing with knowledgeable and experienced staff.

Libraries and us

We are at the forefront in changing libraries

As a design led furniture manufacturer and supplier we work with you to improve the visitor experience. By using intelligent design to create vibrant, welcoming and colourful spaces, we take the role as leaders in our field very seriously.

We offer the highest quality of design

Our highly skilled designers are the backbone of the company. Our aim is to use well thought-out design to create the type of surrounding where users will want to spend time. Clever zoning, alongside effective use of nooks and crannies, can help to create an environment which is ideal for browsing and working. We use computer aided design for our schematic drawings and can even offer 3D realisations to really lift our proposals from the page.

Experience and expertise

With many years' experience producing stunning public spaces, we are experts in our field and can manage your project from start to finish. In partnership with you, we produce creative ideas that work, from the initial brief, through the consultancy, planning and design process to the installation, ensuring your vision not only becomes a reality but is delivered on time and on budget.

Shelving

FG Library offers a wide range of shelving, display & archive solutions to cater for all types of learning spaces. Shelving is still one of the most important elements to choose for your new library, and we offer the ultimate selection to meet your needs.

Latitude

Designed and manufactured in the UK, Latitude is a firm favourite with designers and architects. With the ability to customise components and accessories to fit the clients' precise needs, the clean lines bring a touch of finesse to both traditional and contemporary interiors. This stylish but affordable shelving system can be designed with maximum flexibility and is very versatile.

Reflection

Fully compatible with the original Reska shelving, this versatile and flexible budget cantilever system is as popular today as it has ever been.

Available in 5 heights, 3 widths and 3 depths with a full range of accessories.

Shelving

Calypso

The Calypso shelving range is a hugely versatile system that provides the perfect blend of style and functionality. High quality materials and manufacturing processes ensure this is a competitively priced premium system. The wide choice of colours and three-way shelf positioning not only look great but provide the flexibility required for today's demanding library environments.

Bespoke

As a manufacturer, we are able to provide a bespoke shelving service, meaning that we work closely with architects and designers to apply unique design treatment to any shelving and furniture project.

If you are looking for ideas or inspiration for your library, or would like to see what can be achieved with bespoke solutions, we can help.

Graphics

Our graphic solutions service enables the easy creation of vibrant themed, co-ordinated or branded areas, unique to your library or resource centre.

Graphic images can be mounted on the wall, to the end of shelving bays or to the front of a counter to liven up existing furniture or create a whole new look.

We can use local images or branding to create the most personal of solutions, alternatively we are more than happy to find suitable images for you from our extensive image library.

Signage

Maximise the visual appeal and navigation in your library with effective signage and exciting graphics. We can offer standard and bespoke solutions.

FG Library offers a complete library signage service, designed to complement new and existing library and learning spaces. Signage provides a unique opportunity to facilitate enhanced branding and improve the customer experience.

It is important to have bright, clear and visually appealing signage while complying to all regulatory and DDA legislation. We make sure all this is considered when we propose a solution.

Children's Areas

Creating a stimulating and vibrant library space is key to helping children develop the learning strategies they need to become independent and lifelong learners.

Having a dedicated children's library or learning area encourages children to pick up books, and enjoyment of reading at an early age provides the building blocks for a child's educational future.

Visit our website today for inspiration about creating your own learning space.

Reception Desks

We supply a vast range of counters & desks to cater for all tastes and budgets. Our extensive experience means we are able to provide a solution that meets with your specific needs, either from our standard modular range or by creating something bespoke that we design specifically for you.

Maximising the appeal of the library whilst providing great functionality, we always look to create a wonderful first impression for your visitors.

Service Points

Our innovative Library Pods come in a wide range of materials, are highly space efficient and fully DDA compliant.

They have an option to include open shelves, lockable cash drawers and cupboards depending on your requirements.

Alternatively, we can design a POD to your own specification.

Soft Seating

Create dynamic and colourful learning spaces with soft seating. Our carefully selected collection of soft seating includes sofas, chairs and stools in a range of contemporary colours to make relaxing areas welcoming and fun.

Additionally, our bespoke seating design and manufacturing service allow you to have your seating designed to your exact requirements. This is especially useful when you work with architects and designers to plans and specifications.

Environment

Creative spaces help to encourage creative thought, and we can all appreciate a stress-free environment.

Comfortable furniture with integral charging points, along with good acoustics help create a welcoming and inspiring space, and FG Library has developed a wide range of solutions that increase privacy and improve acoustics, making for a more calming space to work. We can offer everything from single screens to wall and ceiling panels, in a range of striking shapes and colours to suit your aesthetic requirements and budget.

You can also choose from an extensive range of high performance flooring that can help define specific areas and encourage movement through the space and help visitors flow easily from one point to another.
